

CONSULT

Understanding Your Goals

We discuss to understand your goals.

Discover how to make your home allow for private/semi-private spaces including things like:

- welcoming aging parents and/or young adults
- someone with disabilities, or looking to rent for extra income

We learn about:

- your budget
- family needs
- goals
- vision/challenges

Understanding Your Space

We visit your home to understand the space.

We will discuss practical adaptations for your home, including:

- reimagining spaces for semi-private areas
- evaluating a potential home for renovations suitability
- assessing your home and your aging parents' home for the best multi-generational space potential

DESIGN

Creating Conceptual Design

We create a conceptual design for space including:

- reviewing local by-laws
- building codes
- permit requirements
- Making sure the project is feasible and compliant.

Refining Design

We refine the design by:

- preparing detailed plans
- clear proposal
- next steps for construction, including permit & finance ready plans

PLAN

Moving Forward

Final plan ready, now it's time to decide how to move forward:

- use Beckwith Contracting Inc. to complete your build/renovation
- take the project on yourself
- hire another contractor
- utilize a BeHome Management Team

Support, Next Steps

With almost 30 years of experience, Beckwith Contracting Inc. & the BeHome Team will guide you through the decision-making process from:

- timelines
- costs
- outcomes

You'll have everything you need to move forward confidently.

We help make sure your renovation, addition, or custom build transforms your house into a home that supports your family needs today and in the future.
